TO: Scrum Team

FROM: Scrum Master

SUBJECT LINE: Sprint Retrospective

Dear Scrum Team,

I hope all is well with you. I am writing to update everyone on our sprint retrospective and create transparency and visibility for all. The team really appreciates the feedback. Attached below are our key points of discussion and takeaways. (INTRO)

Our team did a very good job with our Sprint. We completed 6 out of 8 objectives and the 2 objectives not met will be monitored and fixed as we continue to escalate. (RECAP)

Below are our takeaways [Key takeaways]

- Our product and development teams did a great job of completing features.
- The team used existing procedures to save time rather than starting from scratch
- User testing was used letting us deliver more value to customers
- Care leaflet design was smooth but we had content issues. We can better integrate content and design processes in the future.
- Create a plan for better vendor communication, stay on top of shipping schedules
- Few issues with understanding the scope. We will look at our backlog together to re estimate our backlog

I will follow up on the next steps on how to move forward for our next Spring. Amazing job team. This is some great work.[Next steps]

Best,
Ryan-Scrum Master
